

# Know your child's lead number

The only way to diagnose lead in a child is through a blood screen.

**Free lead screening available for children ages  
9 months to 6 years old**

**May 12, 2008**

**4:00 PM – 9:00 PM**

**Camden County Technical School gymnasium**

6008 Browning Road

Pennsauken, NJ 08109-1599

**There is no safe level of lead in the human body.** Lead can cause ADD/ADHD, autism, developmental delays and reduced IQ. **The effects of lead are permanent and irreversible.**

A parent or legal guardian must accompany child getting tested. Medical insurance is not necessary. To get more information or to confirm you are attending, call Leann "The Lead Lady" Howell at 609-332-6730.
